

TrueSolum[®] SS

PRODUCT DESCRIPTION

TrueSolum is a proprietary, liquid soil amendment produced from the culturing of algae.

RECOMMENDATIONS FOR USE

Application of TrueSolum will vary based on crop and geography. General directions for application: For best results, pretreat with 1 gallon per acre, 2 to 4 weeks after fumigation or pre-planting, followed by injecting 1/2 to 1 gallon per acre every 7 to 28 days during the growing season.

TrueSolum is compatible with most agriculture products and is safe for tank mixes. It is recommended that you conduct a jar test to confirm compatibility.

SOIL AMENDING INGREDIENTS
