

TrueSolum[®]

PRODUCT DESCRIPTION

TrueSolum is a microalgae derived metabolite soil booster that enhances natural microbial activity in specific species such as bacillus, mycorrhizae, pseudomonads, azospirillum and trichoderma. This activity helps to release, assimilate, solubilize, and make key nutrients available to the crop.

RECOMMENDATIONS FOR USE

Application of TrueSolum will vary based on crop and geography. General directions for application: For best results, pretreat with 1 gallon per acre, 2 to 4 weeks after fumigation or pre-planting, followed by injecting 1/2 to 1 gallon per acre every 7 to 28 days during the growing season.

TrueSolum is compatible with most agriculture products and is safe for tank mixes. It is recommended that you conduct a jar test to confirm compatibility.

EXPIRATION DATE:

Florida license F002635
Guaranteed by GreenTech Ventures, Inc.
10302 McIntosh Rd, Dover, FL 33527

GUARANTEED ANALYSIS

CONTAINS NON PLANT FOOD INGREDIENTS
100% MICROALGAE CULTIVATION SOLUTION
DERIVED FROM: CHLORELLA MICROALGAE

STORAGE

Keep out of direct sunlight at all times. Do not freeze.
